

Events Calendar

BSD Events taking place through November 2020

BY ANNE DICKISON

OpenFEST 2020

November 7 & 8

VIRTUAL

OpenFest is the largest conference in Bulgaria dedicated to free and open-source software. Its purpose is to advocate for projects created with free and open software and to provide a venue for exchanging ideas and best practices in the field. This year's event will be held online. The FreeBSD Foundation Executive Director, Deb Goodkin, will be presenting an Introduction to FreeBSD.

FreeBSD Vendor Summit

November 11–13

VIRTUAL

The 2020 FreeBSD Vendor Summit will consist of virtual, half-day sessions. It's free to attend, but you must register with the Eventbrite system to gain access to the meeting room. In addition to vendor talks, there will be discussion sessions.

FreeBSD Fridays

<https://freebsd.foundation.org/freebsd-fridays/>

November 6: Introduction to RISC-V on FreeBSD—*Mitchell Horne*

Mitchell Horne will discuss the past, present, and future of FreeBSD's support for the RISC-V CPU architecture.

November 20: Introduction to D-Trace

Join Mark Johnston as he takes you through an Introduction to DTrace on FreeBSD.

Past FreeBSD Fridays sessions are available at: <https://freebsd.foundation.org/freebsd-fridays/>

FreeBSD Office Hours

<https://wiki.freebsd.org/OfficeHours>

Join members of the FreeBSD community for FreeBSD Office Hours. From general Q&A to topic-based demos and tutorials, Office Hours is a great way to get answers to your FreeBSD-related questions.

Past episodes can be found at the FreeBSD YouTube Channel

<https://www.youtube.com/c/FreeBSDProject>.
