LETTER

from the Foundation

Welcome to the latest security issue of the FreeBSD Journal.

As the Deputy Security Officer, I am especially interested in the security-focused issues of the Journal and this one does not disappoint. From an Introduction Networking Redundancy with CARP and CHERI Ports and Packages to Tips and Tricks for PAM and SSH, the issue provides an overview of technologies that can help keep your system secure. Members of the FreeBSD Security Team also sat down to talk about how the team works and why we do what we do.

Thank you to the volunteers who serve on the FreeBSD Security Team!

- Gordon Tetlow
- Baptiste Daroussin
- Xin Li
- Dag-Erling Smørgrav
- Glen Barber
- Ed Maste
- Mark Johnston
- Mariusz Zaborski
