LETTER

from the Foundation

Welcome the September/October issue of the *FreeBSD Journal*. This is our Kernel Development issue and includes articles on topics like Porting VPP to FreeBSD, Valgrind for FreeBSD, the first installment of a three-part tutorial on Character Device Drivers, and much more!

Before you dive into these great articles, we have a quick update for 2025. Starting in January, the *Journal* will shift to a quarterly schedule, continuing to bring you the same top-notch tutorials, articles, and columns. This new schedule will allow us to focus on delivering the best FreeBSD content while keeping the *Journal* accessible to everyone.

Everything else you love about the *Journal* will stay the same, and we look forward to bringing you another year of valuable FreeBSD content!

On behalf of the FreeBSD Foundation and *FreeBSD Journal* Editorial Board,

Anne Dickison

Deputy Director
FreeBSD Foundation

John Baldwin

Chair of the *FreeBSD Journal* Editorial Board
